

LOG SPLITTERS

LOG SPLITTERS

An ECHO Bear Cat Log Splitter does the work for you. Powered by either a 1.5hp electric motor or dependable Honda engines and a 2-stage hydraulic pump, an ECHO Bear Cat Log Splitter delivers between 21 and 33 tons of splitting power depending on the model. The complete cycle time, is as fast as 14 seconds and, with the wide-angle wedge, it makes quick work of any log up to 24" long. They operate in either a horizontal or vertical position and are road-towable equipped with a 2" ball coupler and large Carlisle™ Sure Trail® tires. The optional Quick Split easily sets the cylinder stroke length saving time and fuel.

Options

- 76243-00 Log Cradle Extension
- 75896-00 Quick Split
- 75899-00 Throttle Back
- 76241-00 4-Way Wedge

Vertical or horizontal operating positions

4-way wedge attachment

LS27270 Model Shown

A wide-angle wedge quickly powers through the toughest woods

LS21E

- 21 splitting tons
- 1.5hp electric
- 4"x24" cylinder
- Wide angle wedge
- Vertical or horizontal operation
- 24" maximum log length
- 31" bed height from ground

LS21160 / LS21160T

- 21 splitting tons
- 160cc Honda GC engine
- 4"x24" cylinder
- Wide angle wedge
- Vertical or horizontal operation
- 24" maximum log length
- 31" bed height from ground

LS27270 / LS27270T

- 27 splitting tons
- 270cc Honda GX engine
- 4.5"x24" cylinder
- Wide angle wedge
- Vertical or horizontal operation
- 24" maximum log length
- 31" bed height from ground

LS33340 / LS33340T

- 33 splitting tons
- 340cc Honda GX engine
- 5"x24" cylinder
- Wide angle wedge
- Vertical or horizontal operation
- 24" maximum log length
- 31" bed height from ground

Model No.	Engine	Size (in) (LxWxH)	Wedge Size (in) (LxWxH)	Starter Type	Weight (lbs)	Hydraulic Fluid (gal)	Tonnage	Max. Log Length (in)	Tires	Wheel Base (in)
