FOR IMMEDIATE RELEASE

Crary® Bear Cat® Announces New 10-Inch Chipper: CH1015H

West Fargo, ND — Crary® Industries, Inc., manufacturer of Crary Bear Cat outdoor power equipment, announces the release of the new CH1015H Chipper. This new engine-powered 10-inch Chipper joins the lineup of powerful Chippers from Crary Bear Cat. The CH1015H will soon be available through the authorized Crary Bear Cat dealer network. The CH1015H is a great machine for landscapers, contractors, municipalities, rental application, and the tree care industry.

"We are excited to bring a larger capacity chipper into our current, proven OPE product portfolio," said Hannah Tanata, Crary Bear Cat business unit director. "The addition of a 10-inch model allows us to serve more markets based on customer needs."

The 10-inch capacity of the new model allows for chipping larger trees and less pruning of smaller trees. The CH1015H features a 57 HP Kubota gas engine, equipped with a block heater for cold environments. The rotor has 6 blades and 4 paddles for efficient chipping and discharge. The blades are reversible, requiring less sharpening and more up time. Additional features include built-in, long-handle tool storage for convenience, an included tool box, step kit, and grease hoses for fast, efficient maintenance.

"We designed the CH1015H to meet the industry's needs for a larger, customer-centric chipper that offer standard features for ease of operation and efficiency without compromising any power," said Chris Pearson, Crary Bear Cat senior design engineer.

The CH1015H is equipped with a Digital Display Controller (DDC) that offers push-button control, in-field troubleshooting, and hydraulic system diagnostics. The hydraulics are in a self-contained system with flow control to allow optimization of the feed rate.

In addition to the higher intake capacity, the CH1015H is mounted on an easily towable trailer with a 4-position, 18" telescoping hitch pole, allowing optimum towing length for weight distribution. The trailer meets NATM certifications.

The CH1015H will be available in late 2021. Optional accessories include a low profile discharge, blade kit, 2-5/16 coupler, pintle hitch, double E-stops, and spare tire kit. To locate your nearest dealer, learn more, view all available accessories, or see any of the other professional grade products from Crary Bear Cat, please visit www.bearcatproducts.com.

New Crary Bear Cat CH1015H Chipper Model Specifications:

Specifications	CH1015H
Engine	57 HP Kubota
Engine RPM	3600
Fuel	Gasoline
Fuel tank capacity	20 gallons (75.7 liters)
Chipping Capacity	10" (25.4 cm) diameter
Feed	Hydraulic with DDC Controller
Tires	ST205/75R15
Axle	3500 pound torsion with electric brakes
Hitch pole	4 Position/18 inches - Telescoping

Specs continued on next page.

Coupler	2-Inch (50mm)
Trailer wiring	7- pin wire harness connection, 12 volt LED lighting
Weight	3082 lbs. (1401 kg)
Discharge	8" (20.3 cm) diameter, 360° rotation with deflector
Hydraulics	Self- contained, 3 gallon (11.4 liters) tank, flow control
Infeed throat opening	10" x 10" (25.4 cm x 25.4 cm)
Infeed chute opening	31" x 31" (79 cm x 79 cm)
Safety	Knee bar and reverse bars on infeed, chipper housing kill switch, E-stop on engine control panel. Meets ISO safety decal standards.
Rotor	32 (81.3 cm) dia x 1.25" (3.2 cm) thick, 308 lbs (139.7 kg)
Rotor RPM	1700
Blades	6 – 5" x 4" x ½" (12.7 cm x 10.2 cm x 1.3 cm) reversible
Belt	Triple-banded belt drive
Belt engagement	Manual
Rake/shovel holder	3 tubes built into belt housing for tool storage
Access panels	2 access panels on engine enclosure for oil and air filter service
Lubrication	Grease hoses and decals
Dimensions (LxWxh)	184" x 71" x 104" (467 cm x 180 cm x 264 cm)
Warranty	3 year consumer, 1 year commercial, 6 month rental
