

Why It's Time for a Stump Grinder

Getting that smooth garden bed or perfectly seamless lawn is a whole lot easier without having an old stump in the way. We want to help you create beautiful yards and finished projects. Stumps can take decades to break down and more and more people are avoiding some of the harsh chemicals or burning to help remove a stump.

That's where the Crary Bear Cat's Stump Grinder Family comes in. With three models to choose from, adding a unit to your shed is a sure way to get your to-do list done. Make sure you're ready to tackle your list with the reliable [Stump Grinders from Crary Bear Cat](#). Check out these three units.

SGACE: An Ace For Yardwork

A 208cc Briggs & Stratton® engine powers this Stump Grinder, allowing you to remove stumps from your backyard quickly and easily. The [SGACE](#) is perfect for your projects with smaller stumps - the backyard, at the lake, and more.

Boasting a 10" diameter rotor, complete with 8 Carbide Greenteeth®, the [SGACE](#) provides a 10" above ground cut and a 4" below ground cut. [The SGACE rotor is the thickest rotor in its industry class, making this a powerful choice for the weekend warrior.](#)

It's easy to haul too. The SGACE has a compact 25" overall design width, making wide tires, and easy-to-reach controls makes this unit a breeze to fit into any size yard. A fully collapsible, 5-position ergonomic handlebar means it is comfortable to operate and easy to store.

SGXTR: The Extreme Model

A 270cc Honda engine with a cyclonic air filter system powers this Stump Grinder, allowing you to remove stumps quickly and easily. The [SGXTR](#) is the extreme choice for a farmstead or hobby farm.

Boasting a 14" diameter rotor, complete with 8 Carbide Greenteeth®, the [SGXTR](#) provides an 11" above ground cut and a 5" below ground cut.

[The compact 26.5" overall design width, 13" pneumatic tires, and easy-to-reach controls](#) makes this unit a breeze to fit into any size yard. A fully collapsible, 5-position ergonomic handlebar means it is comfortable to operate and easy to store. Comes with Noram clutch. Backed by the Crary® Bear Cat® Best-In-class warranty, the SGXTR is ready to Unleash The Power™.

SGPRO: Tough Enough for the Pros

A 390cc Honda engine with a cyclonic air filter system powers this [SGPRO Stump Grinder](#), allowing you to remove stumps quickly and easily in your own yard or even tough enough for commercial landscape businesses.

Boasting the thickest in its class – 14” diameter rotor, complete with 8 Carbide Greenteeth®, the SGPRO provides an 11” above ground cut and a 5” below ground cut.

[The streamlined 28” overall design width, 13” pneumatic tires, and easy-to-reach controls makes this unit a breeze to fit into any size yard.](#) A fully collapsible, 5-position ergonomic handlebar means it is comfortable operate and easy to store, plus it also comes with a Noram clutch. [The SGPRO is ready to Unleash The Power™.](#)

Don't miss out on the opportunity to create your dream landscape. Be prepared with a Stump Grinder from Crary Bear Cat so that you can make this the year you get it done!
